**Absolutely Pure**  
NO ALUM, NO LIME PHOSPHATE

The man whom fame has brought into the glare Without resentment must accept his lot. The spotlight shows him as a mark so fair That everybody wants to take a shot.

While attention has seldom been called to the fact, a good many are born of poor but dishonest parents.

The great-grandson of Charles Wesley has been sent to jail for forgery. But a man should not be responsible for the conduct of his great-grandson any more than he should be praised for what his great-grandfather did.

## MAY PROVE FATAL

When Will Maysville People Learn the Importance of It?

Backache is only a simple thing at first. But if you find 'tis from the kidneys. That serious kidney troubles may follow. That dropsy or Bright's disease may be the fatal end. You will be glad to know the following experience.

"The statement of a Maysville citizen. Mrs. Della Lunsford, 328 E. Front St., Maysville, Ky., says: 'I attributed kidney trouble to a strain. I had sharp, shooting pains through my kidneys and a dragging down feeling through my hips. I had dull headaches and dizzy spells and often if I had not caught hold of something for support, I would have fallen. I was in that condition for several years, up one week and in bed the next. I finally began to notice symptoms of dropsy and in a short time I was suffering from that trouble. My feet began to swell and my hands were at times the same way. At night I was restless and always felt tired. I read of a similar case being cured by Dora's Kidney Pills and I got a supply. Before long I was completely and permanently cured. Dora's Kidney Pills saved my life. I am glad to confirm my former endorsement of this remedy.' Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Dora's Kidney Pills—the same that Mrs. Lunsford had. Foster-McBride Co., Props., Buffalo, N. Y."

## WHAT REGULATION

### COSTS NEW YORK

Two Commissions Spend Interest On Sixty Millions Each Year.

The two Public Service Commissions of New York State, the so-called New York City Commission and the so-called Up-State Commission, are spending, in the exercise of their functions, about three million dollars a year of the taxpayers' money. It is very well to have somebody to curb the so-called rapacious corporations. It is very well to see that watered securities are not issued in the future, but sixty millions of these watered securities at five per cent interest must be wiped out before these commissions have paid their freight. Three million dollars a year is a very large sum to spend for an idea—Thos. N. McCarter in May Area.

## 'MONSTER' IS O. K.

Mrs. Will Smalley has a capon rooster that has taken charge of two dozen little chicks and is doing the "mother act" better than any old hen could. He is a monster and when he spreads his wings over the brood he covers them perfectly.—Baxter Springs (Kan.) Republican.

## THAT BUSINESS DEPRESSION

An Ounce of Fact Against a Pound of Psychology.

(Philadelphia Ledger.) President Wilson tells the business men of America that while there is a trade depression it is "merely psychological."

Can an extra dose of psychology give back to 2,000,000,000 railroad owners that \$98,000,000 which their properties have lost in eight months this fiscal year, compared with the year before the Wilson regime started?

Is it only a dream or a concrete fact that 1,000,000 workmen are now out of a job?

Can a mental state account for the amazing reversal in America's international trade figures, where a monthly excess of exports ranging up to \$50,000,000 has turned into a balance against us of \$10,000,000 for April?

Does mere sentiment reduce our steel mill output to 60 per cent. of its capacity? Was it hysteria that blew out 15,000 Pennsylvania coke ovens?

No, it was not a "merely psychological" notion that unloaded American-made traffic from 230,000 freight cars and put them out of commission. Baldwin's didn't discharge more than half their employees out of pique.

Building operations in the United States have not fallen greatly simply to create political sentiment. Our bankers are not sending shiploads of gold to Europe to spite somebody.

When securities have been liquidated in 18 months to a level \$2,000,000,000 below their former value the country is not suffering psychologically, but concretely.

It is an outrageous mockery for those whose excessive legislative meddling is largely responsible for our present trade ills to pretend that the people who have suffered the loss and who are out of work are themselves to blame.

The President says there is "nothing more dangerous for business than uncertainty." But his party has left business in no uncertainty whatever, except as to the extent of the calamity which it may inflict.

A man wants to talk about himself. A woman wishes to discuss her "operation."

## SENSIBLY-DRESSED GIRL MAY ALWAYS FIND STEADY EMPLOYMENT.

Chicago.—Young women with good dispositions, average attractiveness and with no slit skirt, low-cut necks or flat curls gummed on their cheeks need never lack employment in Chicago, provided that they possess a reasonable degree of competency. This was the result of a discussion of the subject here by employment heads of a number of large department stores and mail order concerns and experts from the Women's Trade Union league and several civic bodies.

One employer said that the greatest problem is the middle-aged woman who has grown careless of her appearance. Another declared that it was freakish girls. A third said that the hardest kind of girl to find a place for was the college girl with no vocational training.

## FEELS LIKE A NEW WOMAN

As Lydia E. Pinkham's Vegetable Compound Dispelled Backache, Headaches and Dizziness.

Piqua, Ohio.—"I would be very ungrateful if I failed to give Lydia E. Pinkham's Vegetable Compound the praise it deserves, for I have taken it at different times and it always relieved me when other medicines failed, and when I hear a woman complain I always recommend it. Last winter I was attacked with a severe case of organic weakness. I had backache, pains in my hips and over my kidneys, headache, dizziness, lassitude, had no energy, limbs ached and I was always tired. I was hardly able to do my housework. I had taken Lydia E. Pinkham's Vegetable Compound on one other occasion, and it had helped me so I took it again and it has built me up, until now I feel like a new woman. You have my hearty consent to use my name and testimonial in any way and I hope it will benefit suffering women."—Mrs. ORPHA TURNER, 431 S. Wayne St., Piqua, Ohio.

Women who are suffering from those distressing ills peculiar to their sex should not doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

There is nothing new under the sun. The potato sack shirt as worn today is nothing but mother's old wide skirt worn upside down.

## GIVE ONE THOUSAND DOLLARS

To Help Boys and Fight Mail Order Houses.

Citizens of Plain City, Madison County, Ohio, will spend \$1,000 on junior contest work this year. Farmers have joined with bankers and merchants in making up this large sum of money to encourage the growing and showing of farm products, and trips to Washington. The mail order business is being chloroformed by town and county working together. The junior contest work wipes out the Mason and Dixon line between town and farm folks. A community, and co-operative spirit is the result. The Agricultural Commission wants the consumer to appreciate the producer and the producer to appreciate the consumer.

## BANKERS TO MEET JUNE 10 AND 11 AT OLYMPIAN SPRINGS.

Maysville bankers have received invitations and programs for the annual meeting of Groups 7, 9 and 10 of the Kentucky Bankers' Association, which will be held at Olympian Springs June 10 and 11. An interesting program has been prepared and about 150 bankers are expected to be in attendance.

## HUNTERS KILL HUGE EAGLE.

A large gray eagle, measuring over seven feet from tip to tip, which has been preying on young pigs, lambs, chickens and turkeys, was killed Tuesday by Messrs. O. T. Smith and Horace Chouwing on the farm of P. M. Thomas, on Long Lick pike. The big bird was surprised while close to the ground and the men fired upon it with their shot guns. Though wounded the bird went nearly two miles before being brought to the earth after several shots had entered its body. — Georgetown News.

## CHEWING GUM MATERIAL.

It is estimated that 300,000,000 packages of chewing gum, each containing an average of five pieces are sold annually in the United States. These 1,500,000,000 sticks of gum, placed end to end, would extend 71,025 miles, or two and one half times around the world. If stretched into a thread one-sixteenth of an inch in diameter it would reach a distance of 497,875 miles from the earth to the moon, wrap three times around that satellite and back to the earth again. If the physical energy used in chewing this nation's supply of gum could be reduced to foot-pounds and applied to machinery it would furnish power in comparison with which Niagara Falls would be but insignificant.

## WHY FARM LABOR IS SCARCE.

(Lexington Leader.)

The editor of the Leader, talking one day to Mr. Newman, Kentucky's Commissioner of Agriculture, about the various problems which confront the modern farmer, and many incidental subjects as well, asked him this question: "Why is farm labor so scarce?"

The Commissioner's answer was both prompt and enlightening. "The difficulty," he said, "is not so much with the scarcity of farm laborers as it is with the conditions under which thousands of farm hands are asked to work. The old 'farm sunup until sundown' idea is no longer attractive to the average man. Men do not want to get up and eat before dawn and labor on until it is too dark to work in the open and then devour their supper by lamp light. There are thousands of able bodied young men, who would really prefer to remain in the country, but they are attracted to the city where they can get about the same return for their labor in a nine or ten-hour day. When there is a readjustment in farm life and farm business, based upon a nine working day, the farmer, as a rule, will be able to get all the help that he needs, and he will really get about as much for his money in a shorter day as he now gets for the long day, because the human frame can accomplish so much, and no more, in twenty-four hours."

## WISHED SHE COULD DIE

And Be Free From Her Troubles, but Finds Better Way.

Columbia, Tenn.—"Many a time," says Mrs. Jessie Sharp, of this place, "I wished I would die and be relieved of my suffering from womanly troubles. I could not get up, without pulling at something to help me, and stayed in bed most of the time. I could not do my housework."

The least amount of work tired me out. My head would swim, and I would tremble for an hour or more. Finally, I took Cardui, the woman's tonic, and I am not bothered with pains any more, and I don't have to go to bed. In fact, I am sound and well of all my troubles."

Cardui goes to all the weak spots and helps to make them strong. It acts with nature—not against her. It is for the tired, nervous, irritable women, who feel as if everything were wrong, and need something to quiet their nerves and strengthen the worn-out system.

If you are a woman, suffering from any of the numerous symptoms of womanly trouble, take Cardui. It will help you. At all drugists.

It is pretty tough to have to pay an old bar bill. But it beats paying installments on the diamond engagement ring you gave the girl who copped out another sucker and kept the ring.

## AN ALFALFA ENTHUSIAST.

Some worshipper of alfalfa puts it this way: "Alfalfa griddle cakes may soon rival the Boston baked beans. That's the likelihood if it is definitely settled that Nebuchadnezzar, King of Babylon, and of Bible fame lived on alfalfa for seven years. Wonderful results have been secured by Massachusetts farmers in growing alfalfa as food for live stock, and its value for human consumption is being ascertained by experiments. The Bible tells the story that Nebuchadnezzar did eat grass as the oxen, and now the suggestion is put forward that the reason why the King was able to live so long in this way was that he ate alfalfa."

## FROM MANY LANDS.

There is one man in North Carolina who is supporting thirteen missionaries and their native helpers, and proposes to evangelize two hundred and fifty thousand people in one section of Korea. The Moravian Himalaya mission to the Tibetans reports the completion by its missionaries of the translation of the Bible into this almost unknown land. The New Testament has long been translated and in use.

There is one rich man who now lives on one-tenth of his income and gives nine-tenths to the support of the gospel. His income is about \$100,000 a year, and he gives \$90,000 to missions. The announcement has just been made of the sanction of the Portuguese government to the granting of the site for the new Sleeping Sickness hospital at San Salvador, where Dr. Gamble has been laboring with so much devotion and success as a medical missionary.

The 13,500,000 foreign born Americans and the 18,000,000 with one or both parents born abroad, bring to the United States problems that confront no other nation. Sixty-one per cent. of them are not reared under New Testament ideals.

There are more than 380,000 Mexicans along the Rio Grande in the State of Texas.
